Subject: 09/762067-Search of 1 Structure

Hi Beverly,

In the above case (http://expoweb1:8001/cgi-bin/expo/GenInfo/snquery.pl?APPL_ID=09762067) (Priority Date: 8/7/98), could I have you do a search of the compound below in all relevant DB's (Note: That is an oxygen DB bonded above the 1st C to the right of the ring, if it comes through a little unclear).

(Cpd #54)

Also, an Inventor Search (8): http://expoweb1:8001/cgi-bin/expo/GenInfo/sninventors.pl?APPL_ID=09762067.

Gracious - Maury
